Proposition 1. To support nature and prevent soil subsidence HH Delfland should:

- Increase water levels even when this has negative impacts on agriculture.

Rating: 3.4
Proposition 2. To reduce medicine traces in surface water HH Delfland should:

- Install additional filters at water treatment plants rather than invest in reducing source pollution.
Proposition 3: HH Delfland taxes should:

- no longer be fixed per household/company but based on the polluter pays principle.

4

108
Proposition 4:

Minimum-income households should be exempted from payment of water authority taxes.
Proposition 5. The water board should spend additional funds on:

- Biodiversity: 63
- Cultural heritage: 20
- Recreation development on water infrastructure: 34
- Rainproofing urban areas: 48
- Sustainable energy generation: 70
