EUROPEAN COUNCIL October 2014: "[A] reliable and transparent governance system without any unnecessary administrative burden will be developed to help ensure that the EU meets its energy policy goals, with the necessary flexibility for Member States and fully respecting their freedom to determine their energy mix. The governance system will build on the existing building blocks, such as national climate programmes, national plans for renewable energy and energy efficiency”

ENERGY COUNCIL November 2015: "Separate planning and reporting strands will be streamlined and brought together."
"[…] systematic monitoring of key indicators for an affordable, safe, competitive, secure and sustainable energy system"
"[…] facilitate coordination of national energy policies and foster regional cooperation between Member States"
PACKAGE “CLEAN ENERGY FOR ALL EUROPEANS” (NOVEMBER 2016)
