Residential satisfaction in China's informal settlements
edited by Monique Abud

Residential satisfaction among dwellers of China's informal settlements is not, as commonly perceived, determined by socioeconomic attributes but rather by social attachment within the community.

How to dismantle the hukou household registration system?

written by Sebastien Goulard

Prof. Kam Wing Chan's proposal for *hukou* reform

<http://urbachina.hypotheses.org/6472>

UrbaChina Newsletter

*Funded under the European Commission's Seventh Framework Programme, **UrbaChina** is a collaborative project managed by a consortium of 11 leading Chinese and European research institutions. **UrbaChina** analyses China's urbanisation trends for the next 40 years and define possible future scenarios with reference to concepts of sustainability.*
